EDUCATION & AWARDS

The University of British Columbia

Vancouver, BC, Canada

Bachelor of Science in Computer Science (Expected Graduation: May 2027)

Euclid Mathematics Contest, University of Waterloo, Top 5% Internationally

2021

WORK EXPERIENCE

Shopify

Sept. 2026 – Present

Software Engineer Intern

Toronto, ON, Canada

- Traced a broken WhatsApp onboarding flow to an incorrect recommendation; merged a **merchant eligibility fix** with regression tests.
- Implemented a **Polaris pricing banner** matching existing admin UI patterns behind a default-off feature flag; awaiting human review.
- Prepared an approved **UI cleanup across 373 files**, removing legacy layouts, components, hooks, and translations while preserving save behavior; merge pending.

RBC Royal Bank | *Apache Spark, Scala, Airflow, Kafka, Linux*

Jan. – Aug. 2026

Software Developer Co-op

Vancouver, BC, Canada

- Engineered secure **Scala** pipelines orchestrated by **Airflow DAGs** to process **50M+ daily transactions** from **Delta Lake**, enforcing strict **RBAC/encryption** controls on **petabyte-scale sensitive** financial data.
- Optimized **Spark** jobs to cut **test runtime 40%**; rolled back the change after production instability.
- Worked on **multi-region** data pipelines with built-in **fault tolerance**, **idempotent** re-runs, and automated **failover** for critical banking workloads.

Contello.ai | *React/Next.js, JavaScript, Tailwind CSS, TypeScript*

Jan. – Dec. 2025

Software Engineer Intern

Toronto, ON, Canada

- Led a major **UI redesign** using **React/Next.js** and **Tailwind CSS**, building a **reusable component library** that improved workflows, visual consistency, and frontend velocity.
- Built **responsive dashboards** with **JavaScript** and modern **CSS** to visualize real-time queue health, campaign analytics, and multi-brand scheduling across thousands of posts/day.
- Raised reliability to 99.9% by layering **Playwright E2E** tests in CI, ensuring frontend regressions are caught before deployment.

RESEARCH EXPERIENCE

UBC Emerging Media Lab | *Unreal Engine, C++, Python*

Sept. – Dec. 2024

Software Developer & Team Lead

Vancouver, BC, Canada

- Led an **AI-driven VR clinical simulation** in Unreal/C++ with UBC Nursing to train nurse practitioners.
- Designed **interactive UI state machines** for clinical decisions and multithreaded protocol enforcement; optimized inference to cut **latency 40%** and **costs 90%**.

PROJECTS

Backer | *React 18, Next.js 14, TypeScript, CSS*

Hack The Coast 2026

- Built a **React startup feed** with swipe gestures, watch-milestone tracking, and animated like/commit actions.
- Designed **11 component domains** with a shared **UI library** of reusable cards, modals, and form controls.
- Built founder/investor **onboarding flows** with uploads, live validation, and **responsive layouts**.

SoloPilot: Client Ops Studio | *Next.js, React, TypeScript, Tailwind CSS*

Personal Project

- Building a **Next.js/React** workspace for client intake, planning, proposals, and delivery with **Tailwind CSS**.
- Shipped a **JavaScript** intake console with email threads, inline annotations, and versioned PDF previews.
- Implemented responsive layouts and **component-driven architecture** for consistent styling and fast iteration.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, HTML/CSS, Python, Java, SQL, C/C++

Frontend: React/Next.js, Vue.js, Tailwind CSS, Chart.js, responsive design, component libraries, state management

Tools & Platforms: Node.js/Express, Playwright, Git, Docker, AWS (Amplify, S3, CloudWatch), REST APIs, CI/CD
